Dear Rocco,

Thank you for your support throughout our stay in Messina.

It was a very eventful and difficult time and I believe we all behaved professionally, and respectfully. Lets wish the Falcon crew now to depart and wish them safe passage and a good summer.

We will be supportive of your reputation and your efforts with a good reference from us.

You are making a true commitment to Messina with passion and energy and that is always admirable and produces long term success which I wish to you, your team and all the people working and living in Messina around the sea and around such an important location and passage. Have a nice weekend.

Elena

Dear Rocco Finocchiaro

RE: reference letter for Zancle Yacht Village

I am the captain of MY Endeavour2, a 50m Rossinavi 2017, explorer vessel.

My crew and myself arrived to Zancle shipyard end of August 2021 due to some maintenance service which needed to be done mid season. Zancle made a spot available for ourselves immediately, which mid season is a great feat. Upon arrival we were met with great hospitality and professionalism, making us feel right at home and in good hands.

The works were dealt with speedily and accurately, resulting in us leaving on schedule to Turkey today. Their level of skill was second to none.

It should be noted that the security is that of a high caliber shipyard as in any place in the world and within my experience I found the shipyard prices fair and within reason.

I can highly recommend Zankle and will make use of their services again in the future.

Best regards,
Captain Cihan Eser

To the yachting industry!

After suffering unexpected technical issues during a delivery M/Y Element spent 10 days at Zancle in October 2021. During our stay Rocco and his team were a credit to themselves and the yard. Our issues were dealt with in a professional and timely manner and despite delays on delivery of parts due to a strike we were soon able to continue on our voyage. Rocco welcomed us with open arms and treated us like friends rather than clients, even putting on a lavish BBQ for us on our departing weekend. I would highly recommend Zancle to anyone in need of a good place to stop in the Messina area. Be it for technical help or just a safe haven. I wish Rocco and his team the very best in the future with the Zancle project and thank him grandly for his help and hospitality during our stay.
